I just told Rachel what you're being told vs what she told me so she's working it out

Subject: US Steel Chrome Release Maps and Photos

Hi all,

We have new content on the US Steel Chrome website. It's all private right now, but with the go ahead from OPA, **I'll make it public**. You'll have to log in to see all of these new things for now. Today's statement was also added.

Two new maps:

https://response.epa.gov/sites/12130/files/Figure3_Sed%20Sample%20Locations.pdf Sediment sampling locations- not a satellite image

https://response.epa.gov/sites/12130/files/Figure3_SW%20Sample%20Locations.pdf Water sampling locations- not a satellite image

We can also leave the map (non-satellite) with just the drinking water intake and outfall

New photos:

https://response.epa.gov/site/image_list.aspx?site_id=12130

There are two new photos added (both private right now). More coming shortly. I just wanted to get these approved so we get some stuff up asap

Thank you,

Kristina Behnke
